

# Registration form for re-registration as European Lighting Expert

March, 15th, 2023

### Required proofs

According to the Information Sheet "European Lighting Expert Re-Registration", evidence of maintaining professional understanding as well as knowledge of the current state of the art is required.

A total of 60 points is required, which can be composed of different achievements and measures (see document Re-Registration).

This application, along with supporting documentation, should be sent to the respective national lighting society, which will review the application and accompanying documentation. If any questions arise during completion, these should also be addressed to the national light society.
